Re: Discharge at Hyde Street Pier, San Francisco California

Dear Sir or Madam,

Under the Freedom of Information Act, I request that the U. S. Environmental Protection Agency ("EPA") provide copies of any and all documents within its possession, custody, control, and/or jurisdiction regarding discharges of globules or any kind of oil-like material in the vicinity of the Hyde Street Pier in San Francisco, California. The time period covered by this request is from January 1, 2018 to the date of EPA's response to this request. For clarity, the Hyde Street pier is located at 2905 Hyde St, San Francisco, CA 94109.

For purpose of this request, the term "documents" includes without limitation any written material, electronic information, facsimile, email, text messages, photograph, map, data, report, video recording, audio recording, notes of telephone call or meeting, and factual or legal analyses, in any form, draft or final.

Please provide your written responses by mail. Electronic copies of records are preferable. I authorize you to spend up to \$150 for applicable fees, if any, and/or for CDs or other copying expenses which I will reimburse.

I am requesting a response within 10 days of your receipt of this letter. While I am represented by counsel, Stu Gross, copied here, DTSC is authorized to communicate directly with me concerning this request. If you need any clarification you can reach me at 650 581 1129.

Thank you for your help in this matter.

Sincerely,

Dan Clarke
